We have dust monitoring for the clearing of the brush prior to surveying. That's really assessment. Then we have monitoring while we take up concrete and excavate soil. That's removal. Peter may be able to explain better as far as how to split costs. We did this at Holy Trinity as well.

Regards,

Eric

Eric,
The intrusive work which requires the establishment of the perimeter dust monitoring seems to be all related to the removal which is why the cost was applied to that TDD. If you would like to split cost please just let me know how you would like it to be split and I will send along a revised request.

Thanks,

Tim

I agree with the cost. We should discuss if we should be splitting some cost between assessment and removal. Part of the work is so we can prepare for removal but we also are clearing to survey the staging area. Basically assessing for possible future removal that is not part of this action memo (the wooded area).

Eric

Eric,

RST 3 is requesting your concurrence for the up to two week rental (5/31/2016 through 6/15/2016) of five DustTracks, five tripods with DustTrack enclosures, five netronics wireless setups, and one 12 volt marine battery to be utilized during the Removal Action at the Niagara Falls Boulevard Removal Site under TDD No. TO-0006-0225. If you agree with this rental request, please email Shawna Hoppe and myself so a TDD in the amount of \$2,535.90 can be issued. If you have any questions please let me know.

Shawna,

Upon Eric's approval of this equipment rental request please be advised that a new equipment TDD will need to be created for the assignment as no equipment TDD is currently open for this assignment to date.

Thanks,

Timothy Benton, CHMM
